Great exhibitions are rare – as rare as a supernova in fact.
Occurring once every 50 years, they really are a once-in-a-lifetime opportunity.

In the spirit of great exhibitions of the past, ours is a showcase of the outstanding and the extraordinary.

We are the North that bought you the modern world - the North that gave us the steam engine, the electric lightbulb, the beautiful game of football, the Beatles and the wonder material of Graphene.

We’ve achieved a lot, but this is just the beginning.

It is right here where the future is being forged. In labs, lecture theatres, offices, studios and factories from Liverpool to Blyth, Hull to Carlisle.

Their breakthroughs and innovations have an impact on everything from the homes we live in, the way we travel and the jobs we do to the medicines, energy and gadgets we use.

Within our Exhibition, hundreds of designers, engineers, musicians, makers, artists, community groups, businesses and universities have created exciting new ways to share their latest work with you.

This is a unique chance to explore every corner of the North, to meet the people behind the magic and get involved.

Diversity is at the heart of our Northern charm. Subtleties in our humour, language, culture, communities and creativity reflect the contrasting environments that shaped them – from rugged coastlines and dramatic countryside to bustling towns and cosmopolitan cities.
There are three starting points to the Exhibition: Sage Gateshead, BALTIC Centre for Contemporary Art and the Great North Museum.

Each hub presents a vibrant programme of events and activities. Once you’ve explored this, you can step out across the city to discover any one of the three trails showcasing our great Northern innovation, design and art.

Navigating along the trails couldn’t be easier. Download the app (see pg 8) and keep an eye out for our distinct Art, Design and Innovation patterns to keep you on the right track, and if you get stuck our friendly volunteers will be posted along the routes to help you find your way again.
